Become a pioneer of digital transformation and join our fantastic team.

Software Architect / IT Consultant (all genders)

[Apply now](#)

YOUR TASKS

As an IT Consultant (all genders), you are the technical advisor for our customers from various industries, from the initial contact to the live launch and beyond.

You design software and system architectures and model business processes in the e-commerce environment.

You are part of the project team who also supports sales, sketches solutions from concrete project events and analyses and discusses them with the customer in terms of content and expertise.

You spar with our development unit regarding the requirements and testing.

In the role of a product owner, you take responsibility for optimal e-commerce solutions and who can at least read code.

YOUR PROFILE

You are enthusiastic about agile project structures, new methodological approaches and a modern technology stack.

You have relevant professional experience as an IT consultant or software architect in the IT/e-commerce environment.

You have experience in (agile) software development with Java, enterprise content management or enterprise e-commerce systems.

Your future focus lies in one of the following areas: Requirements Engineering, Requirements Analysis, Business Analytics or Software Architecture.

You are a strong communicator and enjoy advising customers.

Desirable: A successfully completed degree in (business) informatics or parable training in the field of IT.

Very good English skills, both spoken and written. German skills are a huge plus for our positions in Germany.

WHY DICONIUM?

Your life. Your benefits. Your diconium.

We offer you a flexible, positive work environment with a wide range of benefits, perks, rewards and opportunities. Discover new skills and improve your strengths, adapt your working day to your personal lifestyle, celebrate community, sustainability and diversity. And sweeten your working life with awesome perks and benefits!
